Two and three generations
ago, the Stars and Stripes
were all over the world.
Then they almost vanished
from the seven seas. But
today they are back again.

Big splendid steamers, Ameri-

WHEN
A MAN
MARRIES

At a recent national conference of savings bank officials
it was said that married men save more than single men—and
more savings accounts are opened in June than in any other
month.

So June, the month of brides—and sweet girl graduates
and eager boys with the light of the world's battles in their
eyes—is also the month of Savings Accounts.

But why limit this advantage to married folks? Every-
one needs a savings account and now is the time to start one.

And here is a good place—where good service and
security of funds make our interest rate doubly attractive.

SOME FACTS ABOUT

Ford Producing 4,000 Cars a Day

Present Production Greater Than for Same Period Last Year

Ford is building cars at full speed. And, according to an official state-
ment from the factory at Detroit, the demand for Ford cars and trucks
still exceeds the output, despite the fact that a new high level of pro-
duction has been reached.

By the first of May the figures representing daily production were
in the neighborhood of 4,000 a day, so the May schedule was set at
101,125 cars and trucks, not including the output of the Ford Canadian
plant or any of the foreign assembling plants. The output mounted
daily: May 12th brought forth 4,092, the greatest number that have
been produced in one day so far this year. Since the month has 25
working days, present indications point to a new high record.
A comparison of Ford production figures for 1920 and 1921 dis-
closes the fact that for April, 1921 the output was greater by 34,514
than for the corresponding month of a year ago. The output for May
1921 will probably reach a new May 1920 by between fifteen and twenty
thousand cars and trucks.

Approximately 43,000 men are at work in the Detroit plant of the
Ford Motor Company. The factory is operating on full time, six days a
week and three shifts a day.

"We were never in a better condition than we are right now,"
said Henry Ford recently.
